PROGRAM REPORT

Title of the Program: Street Play for Mobile Addiction and Road Safety Awareness

Date(s): From 13/02/2020 **Duration:** 01 day

Venue: At Amphithatre, SKH Campus, Anjaneri, Tal. Trimbakeshwar, Dist. Nashik.

Details of Participants: 20

Introduction

The NSS (National Service Scheme) Volunteers of KCT's Late G. N. Sapkal College of Engineering, Anjaneri, took a proactive step in promoting awareness about mobile addiction and road safety among college youth during the annual function of the college. This event was held at the college campus, and it aimed to emphasize the importance of responsible mobile phone usage and safe road practices.

Objective:

1. Raise awareness about the dangers of mobile addiction.
2. Promote responsible mobile phone usage among college students.
3. Highlight the significance of road safety and traffic rules.

The street play was organized as a part of the college's annual function, ensuring a large audience for maximum impact. The volunteers' performance was both engaging and informative. The play was divided into different acts, each focusing on a specific aspect of mobile addiction and road safety. The following key messages were conveyed:

The play began with an introduction to the pervasive nature of mobile phones in our lives and their impact on youth. Volunteers depicted the negative consequences of excessive mobile phone usage, such as decreased social interactions, reduced academic performance, and health issues. The importance of following traffic rules, wearing helmets, seat belts, and not using mobile phones while driving was stressed.

The volunteers acted out real-life situations to demonstrate the potential dangers and accidents that could occur due to mobile addiction and neglecting road safety. The play concluded with solutions and tips on responsible mobile phone usage and safe road practices.

The audience, comprising college students, faculty, and guests, responded positively to the street play. Many were deeply moved by the powerful portrayal of the consequences of mobile addiction and road safety negligence. The message resonated well with the youth, and they expressed a commitment to change their habits and become responsible citizens.

Conclusion:

The NSS Volunteers of KCT's Late G. N. Sapkal College of Engineering, Anjaneri, successfully carried out a thought-provoking street play on mobile addiction and road safety awareness. By

choosing the annual function as the platform, they ensured that their message reached a wide audience of college youth. The college and its NSS team look forward to organizing more such activities to create a safer and more responsible community in the future.
