Notice

National Service Scheme

All the NSS Volunteers and other student volunteers are hereby informed that NSS is organizing Tree Plantation activity in the *Pegalwadi* village in Trimbakeshwar taluka.

In this activity, student volunteers will identify the appropriate places for plantation and plant the tree saplings, involving the villagers in this activity. All interested NSS and other student volunteers hereby informed to attend the activity on 1st March 2022 at *Pegalwadi* village.

For any query or details contact your respective NSS department coordinators.

Date: 01/03/2022

Time: 09:00 AM onwards

Venue: *Pegalwadi* Village, Trimbakeshwar

PROGRAM REPORT

Title of the Program: Tree Plantation at *Pegalwadi* Village

Date(s): From 01/03/2022 to 01/03/2022 **Duration of the Camp – 1 Day**

Venue: *Pegalwadi* Village, Taluka Trimbakeshwar, Dist. Nashik.

Details of Participants: 50

Name of the Contact Person: Mrs. S. B. Bairagi, Gramsevak, *Pegalwadi* Village, Tal. Trimbakeshwar, Dist. Nashik.

Introduction:

The NSS Department of Late G. N. Sapkal College of Engineering conducted a 7-day Residential Camp in the picturesque village of *Pegalwadi*, located in Taluka Trimbakeshwar, from February 24, 2022, to March 02, 2022. As part of our commitment to environmental conservation and community engagement, one of the camp's prominent activities was a Tree Plantation Drive on March 01, 2022.

Tree Plantation Activity:

On March 01, 2022, our dedicated team of 50 NSS volunteers actively participated in a Tree Plantation Activity. The volunteers planted a diverse range of 50 tree saplings within the village of *Pegalwadi*. Each sapling represented a different variety of tree, emphasizing biodiversity and the importance of sustaining our natural environment.

Learning Objectives:

The Tree Plantation Activity had several key learning objectives:

1. **Environmental Awareness:** Students were educated about the vital role trees play in maintaining ecological balance, improving air quality, and supporting biodiversity. They gained a deeper understanding of the importance of tree plantation for the environment.
2. **Community Engagement:** Our volunteers not only planted trees but also engaged with the villagers. They raised awareness about the significance of trees for both nature and human life. By planting trees near the houses of the villagers, they directly involved the community in this crucial environmental initiative.
3. **Hands-On Experience:** The practical experience of planting trees allowed students to connect theory with action. They learned the correct techniques for planting and nurturing young saplings, which is essential for the long-term success of the plantation.

Impact and Outcomes:

1. **Environmental Consciousness:** The Tree Plantation Activity instilled a sense of environmental consciousness among our student volunteers. They now understand the direct positive impact their actions can have on the environment.
2. **Community Awareness:** By interacting with the villagers during the tree planting process, our volunteers successfully communicated the importance of tree plantation. This awareness is expected to foster a culture of environmental responsibility in the village.
3. **Biodiversity Promotion:** The planting of a diverse range of tree species promotes biodiversity and ecological resilience in the area, contributing to a healthier ecosystem.

Conclusion:

The Tree Plantation Activity conducted during the NSS 7-Day Residential Camp was a significant step towards environmental conservation and community engagement. It not only provided our student volunteers with valuable insights into the importance of trees but also made a lasting impact on the village of *Pegalwadi*.

We commend the dedication and enthusiasm of our NSS volunteers who actively participated in this noble endeavour. This experience will undoubtedly inspire them to continue advocating for environmental conservation and community welfare in the future.
