PROGRAM REPORT

Title of the Program: NSS Special Camp - Dental Checkup Camp Activity for villagers.

Date(s): 05/03/2023 **Duration of the activity –** 1 Day

Venue: Wadholi Village, Taluka Trimbakeshwar, Dist. Nashik.

Details of Participants: 52

Name of the Contact Person: Mr. A. M. Supe, Gramsevak, *Wadholi* Village, Taluka Trimbakeshwar, Dist. Nashik.

Introduction:

As part of the 7-day residential NSS Special Camp held in Wadholi village, the NSS Unit in collaboration with Shrivastava Dental Clinic organized a Dental Checkup Camp on the 5th of March 2023. This activity was a significant step toward improving the oral health and well-being of the villagers.

The Dental Checkup Camp was a part of the NSS Unit's commitment to address the healthcare needs of the local community. The decision to organize this activity was based on a preliminary village survey conducted by NSS volunteers at the beginning of the camp. This survey helped identify the specific healthcare requirements of the residents.

Camp Execution:

On the designated date, the Dental Checkup Camp was set up at the Z. P. School in Wadholi village. The camp was equipped with the necessary dental examination tools and staffed by professional dentists from Shrivastava Dental Clinic. Over 50 villagers from Wadholi and the surrounding areas took advantage of this valuable service.

The dental checkup camp included the following services:

Comprehensive Dental Checkups: Experienced dentists performed thorough dental examinations, assessing oral health, and providing valuable insights into any potential dental issues.

Oral Health Education: NSS volunteers and dental professionals conducted sessions to educate the villagers about proper oral hygiene practices, including brushing techniques, flossing, and maintaining a healthy diet to promote good dental health.

Referrals and Treatments: Villagers who required dental treatments or interventions were referred to Shrivastava Dental Clinic for further care, ensuring that their dental health needs were addressed appropriately.

Achievements:

The Dental Checkup Camp achieved several significant outcomes. More than 50 villagers received dental checkups, helping identify potential dental issues at an early stage, which can prevent more

serious problems in the future. The oral health education provided valuable information on how to maintain good dental hygiene.

Community Impact:

The Dental Checkup Camp had a positive and lasting impact on the community. It not only addressed immediate dental health needs but also raised awareness about the importance of regular dental checkups and proper oral hygiene practices. The knowledge and resources provided will contribute to the overall health and well-being of the community.

Conclusion:

The NSS Unit of KCT's Late G. N. Sapkal College of Engineering, in partnership with Shrivastava Dental Clinic, successfully organized the Dental Checkup Camp during the 7-day residential NSS Special Camp. This initiative exemplifies the unit's commitment to community service and the promotion of healthcare awareness.

The NSS Unit extends its gratitude to the dental professionals and volunteers for their dedication and effort in making this activity a success. The Dental Checkup Camp not only provided essential healthcare services but also contributed to a healthier and more informed community, aligning with the broader mission of the NSS.
