PROGRAM REPORT

Title of the Program: NSS Special Camp - Tree Plantation Activity at wadholi village.

Date(s): 05/03/2023 **Duration of the activity –** 1 Day

Venue: Wadholi Village, Taluka Trimbakeshwar, Dist. Nashik.

Details of Participants: 52

Name of the Contact Person: Mr. A. M. Supe, Gramsevak, *Wadholi* Village, Taluka Trimbakeshwar, Dist. Nashik.

Introduction:

As part of the 7-day residential NSS Special Camp held in Wadholi village, the NSS volunteers, in collaboration with the villagers, actively participated in a tree plantation activity on the 5th of March 2023. This initiative aimed to promote environmental awareness and community engagement while contributing to the growth of green cover in the village.

The tree plantation activity was designed to serve multiple purposes. It not only sought to increase the number of trees in the village but also aimed to raise environmental consciousness and foster community participation in green initiatives.

Execution:

On the designated date, the NSS volunteers and villagers gathered to plant a total of 50 tree saplings in various locations within Wadholi. The choice of saplings was based on their suitability for the local environment and their potential to contribute to the overall ecological health of the area.

Planting Process: The volunteers and villagers worked together to dig holes, prepare the soil, and plant the tree saplings. Proper care was taken to ensure that the saplings were planted at the right depth and provided with sufficient support.

Maintenance and Care: Participants were educated about the importance of ongoing care for the planted trees, including regular watering and protection from potential threats.

Community Impact:

The impact of the tree plantation activity was twofold. Firstly, it increased the visual greenery in the village, providing aesthetic and ecological benefits. Secondly, it encourages community members to actively participate in environmental initiatives, which can lead to more sustainable practices in the future.

Conclusion:

The NSS Unit of KCT's Late G. N. Sapkal College of Engineering, through the tree plantation activity, demonstrated the importance of environmental conservation and community engagement during the 7-day residential NSS Special Camp. The initiative not only increased the village's green cover but also inspired a sense of shared responsibility for the environment.

The NSS Unit extends its gratitude to the volunteers and villagers who actively participated in this meaningful activity. Tree plantation is a simple yet powerful way to contribute to a healthier and more

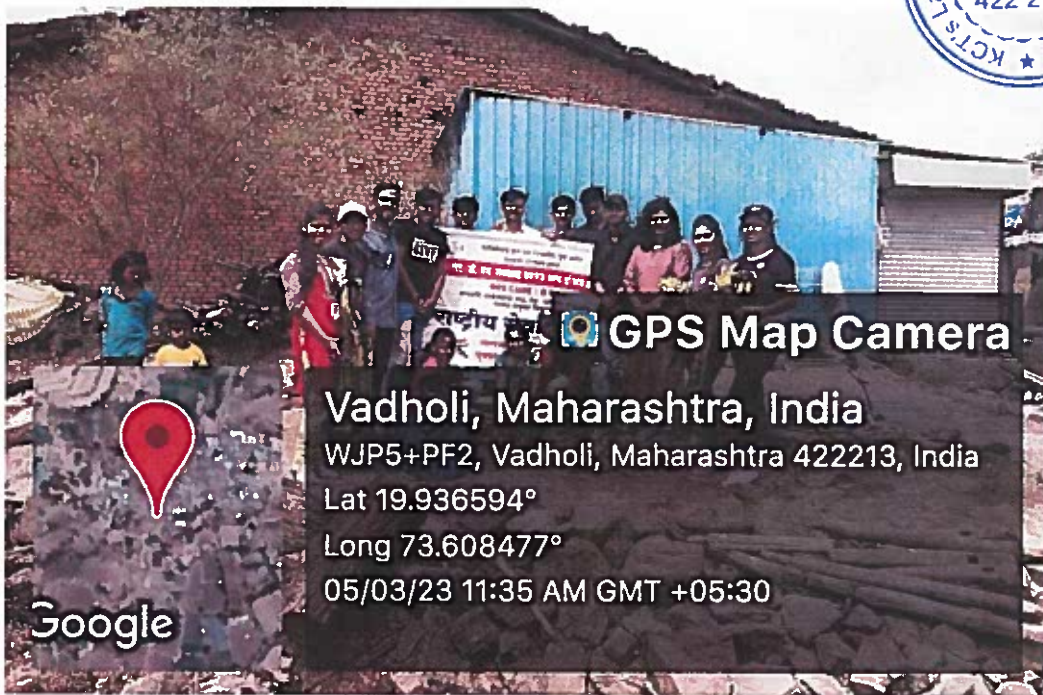

sustainable environment, and this initiative exemplifies the positive impact that community-driven efforts can have on our surroundings.
