**Subject: Requesting permission for conducting add-on program**

Sir,

I, Prof. Avantika A. Mishra, a faculty member of your esteemed institution, humbly request your permission on behalf of our Computer department to plan a Value Added /Add-on program in association with IQAC aimed at enhancing students' knowledge of the subjects. The program's objective is to foster industrial awareness among the students and improve their educational experience.

This program has been planned and implemented by a committed group of professionals, who have made sure that it is in line with both our educational objectives and institutional principles. We have a thorough schedule of events, a participation list, and the materials needed.

Kindly grant us permission to proceed with organization of this program. Your support and guidance will undoubtedly boost the confidence and enthusiasm of our students. We look forward to your positive response and approval for the same.

Thanking you in anticipation.

Yours sincerely,

Prof. Avantika A. Mishra

### PROGRAM REPORT

Title of the Add-on Program: "Modules & Packages in Python and Web Design (Static Website Design)"

Number of Day(s): 05

Dates(s) of Conduction: From 05/02/2024 to 09/02/2024

Venue: Classroom2, NIS Lab(Computer Department)

Number of Participants: 55

#### Program Objectives:

1. To protect the confidentiality of information by preventing unauthorized access or disclosure of sensitive data.
2. To ensure the integrity of information by protecting against unauthorized modification, deletion or alteration of data.
3. To protect against threats such as malware, viruses, and other forms of malicious attacks.
4. To educate students and end-users on best practices for network security to prevent human error or negligence from compromising the network.
5. To quickly get students up to speed with writing apps for Android devices.
6. The student will learn the basics of Android platform and get to understand the application lifecycle.

#### Description / Explanation of the Program:

The Add-on Program on "Modules & Packages in Python and Web Design (Static Website Design)" was organised for Computer Engineering Students of Late G. N. Sapkal College of Engineering to let them be aware about the clear concept and update their knowledge of the Python concepts and also brief knowledge about HTML, CSS, Bootstrap etc. It was guidance for the Important contents of Python Programming and Web designing which provides coding styles and best practices.

#### Outcome of the Program:

1. Import and use items from Python modules.
2. Define, Implement and call a function in Python.

- Understand and use the control flow statements, such as loops and conditional statements (if-then-else).
- Understand and use the basic commands, functions and data types of Python.
- Students will discover how does web works really, what makes web sites work.
  - Simple and impressive design techniques, from basics till advanced to focus on goal oriented and user centric designs.
  - How to and where to start research, planning for website & actually build excellent web sites.
