Description / Explanation of the Program:

Department of civil engineering organized the bird feeder making competition on the occasion of world earth day for all students in campus. Students actively participated in this competition. The criteria for judgment were based on the innovation, usability and the use of eco- friendly materials. Bird feeder made by effective use of the resources available and also avoiding any misuse or wastage of resources. The exhibition of bird feeder display is arranged and hangs it on trees in campus. We also focused on awareness to save earth and environment by contributing in nature by giving seed balls.

Outcome of the Event:

1. To know the ways to raise awareness about earth and environment issues.
2. To learn new innovative ideas of using eco- friendly materials.
3. To know about making seed balls.
4. To know about construction & design of bird feeder.
