Mechanical Engineering	12 PO & 2 PSD	4 PEO
Electrical Engineering	12 PO & 2 PSD	4 PEO
Electronics and Telecommunication Engineering	12 PO & 3 PSD	4 PEO
Civil Engineering	17 PO & 5 PSD	6 PEO

Outcome Based Education (OBE)

- Outcome Based Education is an approach to education in which decisions about the curriculum, instruction and assessment are driven by the exit learning outcomes that the students should demonstrate at the end of a program or a course.
- In outcome-based education, "product defines process".
- It is the opposite of input-based education where the emphasis is on the teaching and the system is happy to accept whatever is the result.

Advantages of OBE

- Clarity: An explicit statement of what the educational process aims to achieve, clarifies the curriculum for both students and teachers, and provides a focus for teaching and learning.
- Provision of a Framework: Outcome-based education provides a robust framework for integration of the curriculum.
- Guide for Assessment: The outcomes provide the framework for student examinations.
- Facilitates Curriculum Evaluation: The outcomes provide benchmarks against which the curriculum can be judged.

Features of an Outcome Statement

- Should unambiguously state what the student should be able to do/perform.
- What the students do or perform are observable and measurable.
- Students should be able to understand what it means (comprehensible).

Use of Online Exam Platform

- To conduct continuous assessment examination with automated reports facility
- To prepare students for competitive examinations from day first
- To transform institute to digital one
- To remove fear of online exam and practice of MCQ's from first year to sustain in competitive world
- To support in Green Campus Initiative and contribute for greener nation
- To prepare aptitude logical reasoning for students
- To identify slow learners / advanced learners

How it is connected with android app?

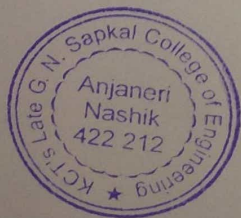

vmedufile Android App is available for both students and faculties. As a faculty, you can view the online exam attendance from android app in live mode. Students can view exam marks from android application. Online exam will be soon available soon on Android App and you as a faculty will be having rights to decide exam access on android application.

How students can view result?

Students can view result from vmedufile Android App and from web portal too.

Can students check own performance with correct/incorrect answers and explanation?

Students can easily check the performance from the web dashboard. Students can check the complete answer sheet with correct/incorrect answer and detailed explanation for every question.

Quick Steps to Start

1. Configure Admission Type, Admission Status, Admission Category and Religion from Admission -> Setting tab.
2. Add groups / semesters from Admission -> Group tab.
3. Import student list from Admission -> Registered Students -> Import.
4. Download Prerequisite CSV file which includes values for Year of Admission, Admission Type, Admission Number Series, CERN Series, Category, Payment Category, Blood Group, Gender, Religion, Status and Admission Status which will be used for reference to import students.
5. Download Sample Student CSV. Add your students and import to respective academic year, department and group / semester. After importing the CSV, imported student list can be viewed in Registered Students tab.
6. After importing the CSV, imported student list can be viewed in Registered Students tab.

Saillant Features of Admission

Enquiry Generation
Generate form for collecting enquiries related to admission. Admission forms are fully customizable. You can add your own required fields.

Manage Enquiries
Set custom status for the admission form enquiries. Assign the Approver to the respective status. Grant access to a specific user for modifying the status approvals.

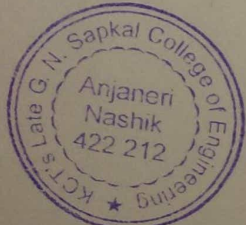

Register as a Student
Once you confirm any enquiry, you can register any enquiry as a student within few clicks.

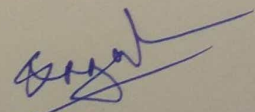

Academic Year-wise FEES
Here, we have provided an option to maintain the intake quantity as per the academic year of the institute for the respective department.

Group Management
Create groups for the selected students as per semester/year of the institute. Assign groups to the parent group for managing year-wise data.
