Description / Explanation of the Program:

The Add-on Program on “**Trends in civil Engineering**” was organised for the students of Late G. N. Sapkal College of Engineering to let them be aware about the clear concept and update their knowledge of this topic. It was for the guidance for the latest technology in civil Engineering who support and encouragement, provided to the students during the Five days hands on Program.

Outcome of the Talk / Event:

1. Estimate the level of resource utilization for present and future infrastructural projects using various tools/methods
2. Outline the role of Civil engineering in evolution and revolution of mankind and globally present status of development in India.
3. TO Design principles and designing of building components.
4. Understand the concepts of hydrology, precipitation, Water Resources forms, types and classification
5. Analysis of various elements like beam, column, truss, frame.
