

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the manual

Description of Best Practice – I: Student counseling and Teacher-Guardian scheme

1. **Title of the Practice:** Student counseling and Teacher-Guardian scheme
2. **Objectives of the Practice**
 - To help students to solve technical as well as non-technical issues through personal counseling
 - To support students' personal growth and total development
 - To create awareness about their hidden potentials
 - To develop positive attitude to face the professional & personal life situations

3. **The context**

By designating a teacher guardian to a group of pupils, counseling and mentoring can be done efficiently. Through fostering trust and confidence, mentoring offers the chance to discuss challenges and problems in order to receive qualified assistance and guidance. The teacher guardian produces reports at regular intervals.

4. **The practice**

The teacher guardian scheme offers students a one-of-a-kind chance to interact with a seasoned professional and receive personalised career advice, support, and direction for their chosen field. From the first to the last year, a teacher guardian is assigned to a certain group of pupils. This mentoring programme is run in an organised manner. Students and the teacher guardian meet frequently to talk about academic and personal progress.

The support offered by the counseling through teacher guardian is reflected in the academic and employment achievement of students. The database of students who were guided and inspired to reach greater career heights supports the aforementioned claim. During counseling sessions and teacher guardian meeting, students learn about their own personality features and are given advice on how to improve in certain areas so that they can develop into fully-rounded professionals. It aids students in getting ready for their placement.

In certain severe cases of depression, the success of the scheme was also seen. Some students were coping with personal and medical issues as well, which teacher guardians handled expertly. Some of the students were on the point of quitting their engineering programmes due to bad results in their semester examinations and concerns about their ability to handle life in

general. In such situations, many students have been inspired to finish their programme by the teacher guardian through counseling. The guardian teacher updates the parents frequently on their ward's development.

In addition, the students are counseled about road safety, healthy lifestyles, cleanliness, Swachh Bharat campaign, conservation of water and energy, choice of careers etc. They are also informed about the various facilities and scholarships that are available.

5. Evidence of Success

- Increased student attendance and concentration on the teaching-learning process.
- Enhanced communication between the college and parents.
- Improved student self-assurance and study habits.
- Improved student engagement in extracurricular activities and contests.
- Contributes to maintaining a litter-free campus.
- Students use trash cans placed in appropriate places in accordance with instructions to separate dry and moist waste.

6. Problems Encountered and Resources Required

- Being a mentor requires specialized work. Faculty must have the necessary training to improve mentoring efficacy.
- It can be challenging for the teachers to dedicate enough additional time to the students due to their busy schedules and other academic commitments.
- If a student received the same mentor throughout the programme, it would be more successful overall, however due to administrative issues, this couldn't be possible.
