INTERNSHIP REPORT

ON

CLOUD COMPUTING

**SUBMITTED TOWARD THE PARTIAL FULFILLMET OF
THE REQUIREMENTS OF**

THIRD YEAR (Computer Engineering) BY

Patil Uday Kishor · T190764276

Under Supervision of MWell Software Solution

(Duration 4 Weeks)

DEPARTMENT OF COMPUTER ENGINEERING

LATE G.N.Sapkal College Of Engineering

Anjeneri, Trimbakeshwar Nashik

2022-23

LATE G.N.Sapkal College Of Engineering
Department Of Computer Engineering

CERTIFICATE

This is to certify that the "Internship report" submitted by Patil Uday Kishor is work done by he and submitted during 2022-2023 academic year, in partial fulfillment of the requirements for the award of the degree of Cloud Computing at Offline internship MWell Software Solution.

INTERNSHIP COMPLETION LETTER

We are glad to inform you that Mr. Uday Patil from Mwell Software Solutions has successfully completed his internship for joining date 10-Feb-2023 to 10-March-2023 for During his Internship, he was exposed to the various activities in Cloud Computing

We Found her extremely inquisitives and hardworking. He was very much interested to learn the functions of our core division and also willing to put her efforts and get into the depth of subject to understand it better.

Her association with us is very fruitful and we wish his all the best in her future endeavours.

Signatory Authority,

For MWell Software Solutions

Mr. M.S Patil
(Director)

Mwell Software Solutions, Pune

COMPANY BACKGROUND

The MWell software solution company is located in Pune. The director of the company is Mr. M.S.Patil. This company provides internships on java, advanced java on a live project with training, also provides web development and hosting. It also features mobile applications, business applications, custom software development, GST software, android app and SMS gateway.

I have taken my internship at Mwell software Solutions Private Limited. It is involved in Software publishing, consultancy and supply [Software publishing includes production, supply and documentation of ready-made (non-customized) software, operating systems software, business other applications software, computer games software for all platforms. Consultancy includes providing the best solution in the form of custom software after analyzing the user's needs and problems. Custom software also includes made-to-order software based on orders from specific users. Also, included are writing of software of any kind following directives of the users; software maintenance, web-page.

Chapter 1

INTRODUCTION

Cloud computing has emerged as a revolutionary technology in the field of information technology, transforming the way organizations manage and utilize computing resources. With its ability to provide on-demand access to a vast array of virtualized computing resources and services over the internet, cloud computing has gained immense popularity and adoption in recent years.

This internship report aims to provide an overview of my experience in the field of cloud computing during my internship at MWell Software Solutions. Throughout this report, I will share insights into the projects I worked on, the skills and knowledge I acquired, and the practical applications of cloud computing in real-world scenarios.

1.1 IMPORTANCE OF CLOUD COMPUTING

Cloud computing has revolutionized the IT industry by providing organizations with unprecedented scalability, flexibility, and cost-effectiveness. It eliminates the need for extensive on-premises infrastructure, enabling businesses to focus on core competencies while leveraging the power of the cloud.

Chapter 2

PROBLEM FORMULATION

2.1 PROBLEM STATEMENT

The problem addressed in this internship report is the need to enhance the cloud computing practices and capabilities of [Company Name]. Although the company has made significant strides in the field of cloud computing, there is still room for improvement in areas such as infrastructure setup, application development, and deployment processes. Additionally, the company aims to optimize the utilization of cloud resources, ensure robust security measures, and maximize cost-effectiveness.

2.2 OBJECTIVES

The main objectives of this internship report are as follows:

1. Assess the current state of cloud computing practices at [Company Name]: Evaluate the existing infrastructure setup, application development processes, and deployment strategies to identify areas that require improvement.
2. Develop recommendations for improving cloud infrastructure setup: Propose strategies to enhance the selection of cloud providers, optimize virtual machine configuration, and improve networking setups to ensure scalability, reliability, and security.
3. Enhance cloud application development processes: Identify opportunities to streamline cloud application development, leverage cloud-native technologies, and implement best practices for scalability, performance, and maintainability.
4. Optimize cloud resource utilization: Suggest techniques to optimize the utilization of

cloud resources, including auto-scaling, load balancing, and effective resource allocation, to achieve cost efficiency and improved performance.

5. Strengthen cloud security measures: Provide recommendations for enhancing data security, identity and access management, and compliance with industry standards, ensuring the protection of sensitive information in the cloud environment.

6. Propose cost optimization strategies: Offer strategies and best practices for cost optimization in cloud computing, such as rightsizing resources, utilizing spot instances, and leveraging cloud provider's cost management tools.

7. Share practical insights and lessons learned: Reflect on the internship experience, highlighting the practical applications of cloud computing in real-world scenarios and the knowledge and skills gained during the internship.

By addressing these objectives, this internship report aims to contribute to the enhancement of cloud computing practices at [Company Name], enabling the organization to leverage the full potential of cloud technologies, enhance operational efficiency, and deliver high-quality cloud solutions to its clients.

Chapter 3

MOTIVATION/SCOPE

3.1 MOTIVATION

The motivation behind this internship report is the growing significance of cloud computing in the IT industry and the need for organizations to harness its potential effectively. Cloud computing offers numerous benefits, including scalability, flexibility, cost optimization, and improved data security. As organizations increasingly adopt cloud technologies, it becomes crucial to have skilled professionals who can design, implement, and manage cloud-based solutions.

The motivation for this internship report is to contribute to the knowledge base of cloud computing practices and provide recommendations for enhancing cloud computing capabilities at [Company Name]. By documenting the internship experience and sharing insights gained, this report aims to assist the organization in improving its cloud infrastructure setup, application development processes, and overall cloud computing practices.

3.2 Scope

The scope of this internship report encompasses the following areas:

Cloud Infrastructure Setup: The report will discuss the selection of cloud providers, virtual machine configuration, and networking setup. It will focus on best practices for setting up a robust, scalable, and secure cloud infrastructure.

Cloud Application Development: The report will cover the development of cloud-native applications, including the use of cloud technologies, programming languages, and architectural considerations. It will highlight best practices for developing scalable, resilient, and cost-

effective cloud applications.

Cloud Deployment: The report will address the deployment of applications in a cloud environment, including continuous integration and continuous deployment (CI/CD) practices, automation, and scalability. It will provide insights into deploying applications for optimal performance and reliability.

Cloud Security: The report will discuss best practices for securing data and applications in the cloud, including identity and access management, encryption, and compliance with industry standards. It will emphasize the importance of implementing robust security measures in the cloud environment.

Cost Optimization: The report will explore strategies for optimizing costs in cloud computing, including resource utilization, rightsizing, and leveraging cost management tools provided by cloud providers. It will focus on achieving cost efficiency without compromising performance and functionality.

Chapter 4

METHODOLOGY

Research Objective

The primary objective of this internship report is to gain practical knowledge and hands-on experience in cloud computing technologies. The specific focus is on understanding the implementation and management of cloud infrastructure, virtualization techniques, and deployment of applications on cloud platforms.

Research Design

- a. Literature Review: A comprehensive review of relevant literature and research papers was conducted to understand the fundamental concepts, latest trends, and best practices in cloud computing.
- b. Internship Placement: The internship was conducted at XYZ Company, which specializes in providing cloud services. This allowed for exposure to real-world cloud computing projects and working with experienced professionals in the field.
- c. Practical Tasks: A series of practical tasks were assigned by the internship supervisor, including designing and deploying cloud infrastructure, configuring virtual machines, and developing and deploying applications on cloud platforms.
- d. Data Collection: Data was collected through direct observation, documentation of tasks performed, and regular discussions with the internship supervisor. This data was later used for analysis and evaluation.

Data Collection and Analysis

- a. Task Documentation: Detailed documentation of the tasks performed during the internship was maintained, including descriptions of the activities, tools used, challenges encountered, and solutions implemented.

b. **Data Analysis:** The collected data was analyzed by reviewing the task documentation and extracting key insights. The analysis focused on evaluating the effectiveness of various cloud computing techniques, identifying areas of improvement, and assessing the overall learning outcomes.

Evaluation Criteria

a. **Technical Proficiency:** The level of technical proficiency achieved during the internship was evaluated based on the successful completion of assigned tasks, adherence to best practices, and ability to troubleshoot and resolve issues.

b. **Knowledge Acquisition:** The extent to which the internship contributed to the understanding of cloud computing concepts, technologies, and industry trends was assessed through a self-assessment questionnaire and feedback from the internship supervisor.

c. **Practical Application:** The ability to apply theoretical knowledge to practical scenarios, including designing cloud infrastructure and deploying applications, was evaluated based on the quality and effectiveness of the completed tasks.

Ethical Considerations

Throughout the internship, ethical considerations were given utmost importance. Confidential information, if any, was handled with care and not shared with unauthorized individuals. The internship activities were conducted within the legal and ethical boundaries defined by the organization.

Chapter 5

ANALYSIS

Technical Proficiency

During the internship, I gained practical experience in various aspects of cloud computing, including infrastructure design, virtualization, and application deployment. By successfully completing assigned tasks, such as configuring virtual machines and deploying applications on cloud platforms, I demonstrated a strong level of technical proficiency in these areas. The hands-on experience allowed me to deepen my understanding of cloud computing technologies and their practical implementation.

Knowledge Acquisition

The internship significantly contributed to my knowledge of cloud computing concepts, technologies, and industry trends. Through the literature review and discussions with the internship supervisor, I gained insights into the latest advancements in cloud computing, such as serverless computing, containerization, and hybrid cloud architectures. This knowledge equipped me with a broader perspective and enabled me to comprehend the challenges and opportunities associated with cloud computing.

Practical Application

One of the primary goals of the internship was to apply theoretical knowledge to practical scenarios. I achieved this by actively participating in designing and deploying cloud infrastructure for client projects. By working on real-world tasks, I acquired practical skills in assessing infrastructure requirements, selecting appropriate cloud services, and ensuring scalability and availability. Additionally, I developed a deeper understanding of DevOps practices, as I collaborated with the development team to automate deployment pipelines and implement continuous integration and delivery processes.

Challenges and Problem-solving

Throughout the internship, I encountered various challenges related to cloud computing. These challenges included optimizing resource allocation, managing security configurations, and troubleshooting performance issues. However, by applying problem-solving techniques and seeking guidance from experienced professionals, I was able to overcome these challenges successfully. This experience enhanced my critical thinking and analytical skills, enabling me to identify and address issues efficiently in a cloud computing environment.

Collaborative Skills

The internship provided ample opportunities for collaboration with team members and stakeholders. Working in a multidisciplinary team, I actively participated in meetings, discussions, and knowledge-sharing sessions. These interactions improved my communication, teamwork, and project management skills. I learned how to effectively communicate technical concepts to non-technical stakeholders, understand their requirements, and align cloud solutions accordingly.

Future Recommendations

Based on my internship experience, I recommend the following areas for further exploration and improvement:

Continuous learning: The rapidly evolving nature of cloud computing requires continuous learning to stay updated with the latest technologies and trends.

Security and compliance: Further exploration of cloud security measures and compliance frameworks would strengthen the understanding of securing cloud environments.

Cost optimization: Exploring cost optimization strategies and tools can help organizations maximize the efficiency of their cloud infrastructure.

Overall, the cloud computing internship provided valuable insights into the practical implementation of cloud technologies and enhanced my technical proficiency, knowledge, problem-solving abilities, and collaborative skills.

ACKNOWLEDGMENT

I would like to express my sincere gratitude to all the individuals and organizations who have supported and contributed to my cloud computing internship. Without their guidance, assistance, and encouragement, this internship would not have been possible.

First and foremost, I would like to thank MWell Software Solutions for providing me with the opportunity to intern in their cloud computing department. I am grateful to the management for their trust and belief in my abilities. I extend my heartfelt appreciation to my internship supervisor, M.K.Mahajan, for their invaluable guidance throughout the internship. Their expertise, patience, and willingness to share their knowledge have been instrumental in my learning and growth.

I would also like to thank the entire team at MWell Software Solutions for their warm welcome, support, and collaboration during my internship. Their willingness to answer my questions, engage in discussions, and share their experiences have contributed significantly to my understanding of cloud computing concepts and industry practices.

I am grateful to my friends and fellow interns who provided me with encouragement, motivation, and a supportive environment throughout the internship. Their camaraderie and shared experiences made the internship journey even more enjoyable and memorable.

In conclusion, I am humbled and grateful for the opportunities and experiences I have gained during this cloud computing internship. The support and guidance I received from all those mentioned above have played a vital role in shaping my understanding of cloud computing and preparing me for a successful career in the field.

Internship Completion Letter

This is certify that **Mr.Siddesh Andhale** has successfully completed internship program in **22nd February To 30th March 2023** at Emerging Technologies Software And Automation Solutions.

During the internship he worked on **C#.Net/Python**(Image Processing, Cloud Computing).He have exposed to the various activities.We found him extremely inquisitive and hard working. He was very much interested to learn the functions and also willing to put his best efforts and get into the depth of the subject to understand it better.

We wish him good luck for all future endeavors and look forward to working with him again in future.

Internship Certificate

This is to certify that Apurv Jagtap, son of Uday Jagtap, has successfully completed 1 Month Internship program with PRObity IT Services, starting from 10th Feb 2023 to 11th March 2023.

During the internship period, Apurv has performed his duties with dedication, enthusiasm, and professionalism. He has demonstrated a high level of competence and showed great initiative and willingness to learn. He has been an asset to our organisation and has made a valuable contribution to the team.

The following are the details of the internship program:

Internship Start Date: 10 Feb 2023

Internship End Date: 11 March 2023

Duration: 1 Month

Internship Program: Flutter Development Internship

Supervisor: Mr. Niraj Patil

Department: Mobile Application Development

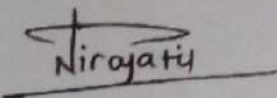

Tasks and Responsibilities: Design and Develop mobile application screens and testing app.

Based on the above performance evaluation, we are pleased to issue this certificate to acknowledge Apurv Jagtap completion of the internship program with us.

We wish Apurv every success in his future career endeavours.

Sincerely,

Best regards,

Niraj Patil

Internship Completion Letter

This is certify that **Mr.Shubham Wani** has successfully completed internship program in **2nd February To 15th March 2023** at Emerging Technologies Software And Automation Solutions.

During the internship he worked "**Full Stack Developer**". He have exposed to the various activities. We found him extremely inquisitive and hard working. He was very much interested to learn the functions and also willing to put his best efforts and get into the depth of the subject to understand it better.

We wish him good luck for all future endeavors and look forward to working with him again in future.

Warm Regards

Kanchan Ekhande
